Alexey Smozhankov

PLAYABLE ADS DEVELOPER

5 years / 300+ creatives / 21 playables / PixiJS + Three.js

01 / Simulation / 2D / 3D

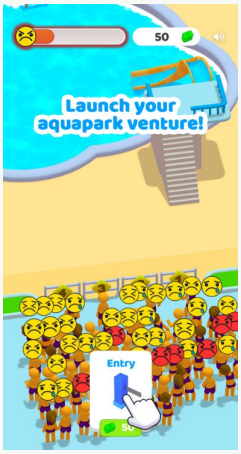

Railroad Empire

Resources & routes

Choose a locomotive and deliver resources to develop a railway.

Implementation

Train selection with different capabilities, delivery routes, resource counters and contextual onboarding.

02 / Simulation / 3D

My Aquapark

Build an aquapark

Open attractions, welcome visitors and grow an aquapark.

Implementation

Purchasable objects in a 3D scene, visitor queues, mood feedback and step-by-step hints.

03 / Action / 3D

Pixel Gun 3D

Aim & shoot

A first-person shooter with a vivid voxel scene and moving targets.

Implementation

A first-person camera, moving enemies, an on-screen weapon and in-scene onboarding.

Alexey Smozhankov

PLAYABLE ADS DEVELOPER

5 years / 300+ creatives / 21 playables / PixiJS + Three.js

04 / Strategy / 3D

Kingdom Clash

Stop the horde

Deploy units to defend against an advancing army.

Implementation

Drag-and-drop unit placement, a deployment grid, unit costs and a large-scale defensive scenario.

05 / Adventure / 3D

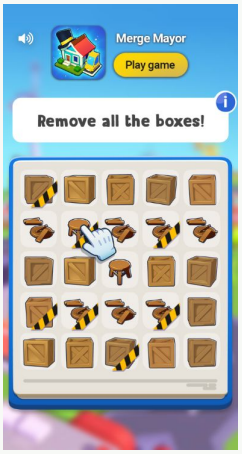

Last Day on Earth

Break into the base

A survival scenario with character movement and environmental interaction.

Implementation

A virtual joystick, action buttons, an isometric camera and an abandoned-base environment.

06 / Puzzle / 2D

Merge Mayor

Merge & clear

A merge puzzle about combining objects and clearing boxes from a board.

Implementation

Grid-based dragging, merge chains, obstacles and a first-move hint.

Alexey Smozhankov

PLAYABLE ADS DEVELOPER

5 years / 300+ creatives / 21 playables / PixiJS + Three.js

07 / Adventure / 3D

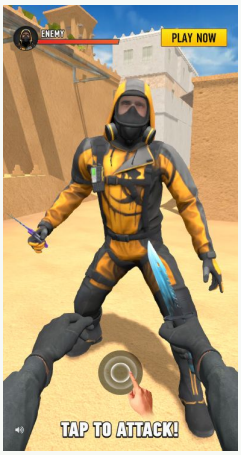

Mistland Saga

Workshop & progression

A fantasy 3D scene with resources and a workshop to unlock.

Implementation

A camera in a fantasy environment, workshop framing, resource UI and contextual hints.

08 / Action / 3D

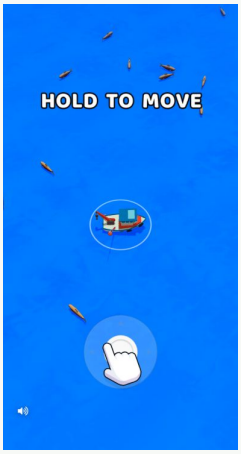

Standoff 2

Knife duel

First-person melee combat with enemy animation and a health bar.

Implementation

First-person weapons, melee animation, health state and an attack prompt.

09 / Simulation / 3D

Fish Idle

Fishing route

Steer a boat through a scene filled with moving schools of fish.

Implementation

A virtual joystick, boat movement, ambient fish and a gesture hint.

Alexey Smozhankov

PLAYABLE ADS DEVELOPER

5 years / 300+ creatives / 21 playables / PixiJS + Three.js

10 / Simulation / 3D

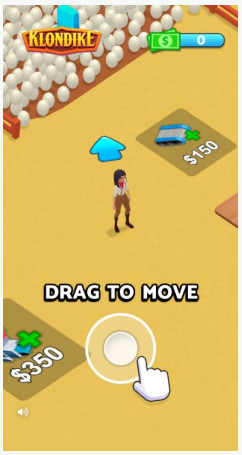

Candy Crush Saga

Chocolate factory

Collect chocolate and develop production in the Candy Crush world.

Implementation

A 3D character, virtual controls, chocolate collection, production zones and progress UI.

11 / Simulation / 3D

Klondike

Grow a farm

A farming scenario with character movement and purchasable objects.

Implementation

Character controls, purchase zones with visible costs, a farm environment and directional hints.

12 / Action / 3D

Web Master

Choose your hero

Choose a character before entering an action scenario.

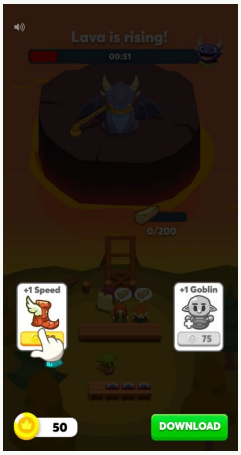

Implementation

A 3D character carousel, selection controls, confirmation and a transition into gameplay.

Alexey Smozhankov

PLAYABLE ADS DEVELOPER

5 years / 300+ creatives / 21 playables / PixiJS + Three.js

13 / Simulation / 3D

Forge Land

Gather & upgrade

Gather resources and upgrade workers as lava rises.

Implementation

Hiring and speed controls, upgrade costs, a resource counter and a timed scenario.

14 / Action / 3D

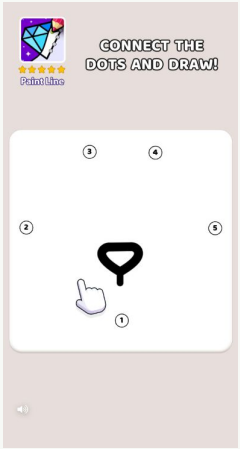

World War Heroes

Cover your allies

First-person shooting across a layered combat environment.

Implementation

Aiming, a first-person weapon, target highlights, an ammo counter and atmospheric effects.

15 / Puzzle / 2D

Paint Line

Connect & draw

Connect numbered dots with a continuous gesture.

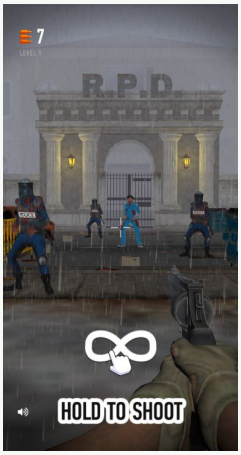

Implementation

Numbered points, line tracking, a directional hint and gradual picture completion.

PLAYABLE ADS DEVELOPER

5 years / 300+ creatives / 21 playables / PixiJS + Three.js

16 / Action / 3D

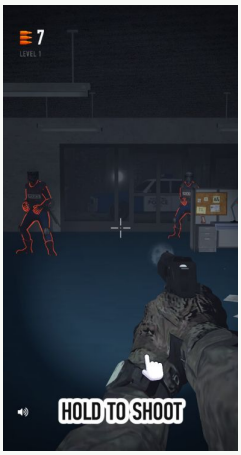

Zombie Shooter

Police station defence

A rainy police-station shooter with limited ammunition.

Implementation

A first-person camera, hold-to-aim controls, multiple enemies, ammunition and weather effects.

17 / Action / 3D

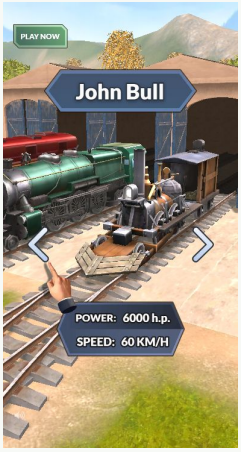

Zombie Shooter

Night encounter

An indoor firefight with outlined enemies in a dark environment.

Implementation

Enemy outlines, a crosshair, weapon animation, an ammo counter and a hold-to-shoot hint.

18 / Simulation / 3D

Railroad Empire

Locomotive collection

Choose a locomotive in a 3D depot and compare its power and speed.

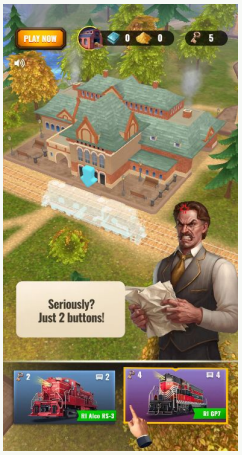

Implementation

A 3D depot carousel, locomotive power and speed statistics, a gesture hint and a transition to the route.

Alexey Smozhankov

PLAYABLE ADS DEVELOPER

5 years / 300+ creatives / 21 playables / PixiJS + Three.js

19 / Simulation / 3D

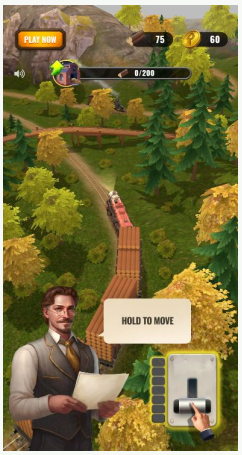

Railroad Empire

Choose a locomotive

Compare trains and develop a route around a railway station.

Implementation

Locomotive cards with stats, selection feedback, a 3D station and resource UI.

20 / Simulation / 3D

Railroad Empire

Drive the train

Drive a train along a forest route using a lever.

Implementation

Hold controls, train animation, a route-following camera and resource progression.

21 / Simulation / 3D

Railroad Empire

Inside the cab

First-person train controls with an interactive lever inside the cab.

Implementation

A first-person cab, a draggable lever, a dashboard and railway movement.
